Garden Feast

- ✔ Complete nutritional fertiliser
- ✔ Seaweed enhanced with bio-stimulants
- ✔ Suitable for herbs, vegetables & lawns
- ✔ Makes over 200 ltrs

1 litre

Approved Organic Source

Fair Dinkum Fertilizers Garden Feast is a blend of liquid seaweed, amino acids and other organic substances produced by the breakdown of protein.

The seaweed in Garden Feast also contains some trace elements, including a significant amount of iron and calcium and a small amount of cobalt that can be rapidly taken up by plants and can also be used by the soil microbes.

Garden feast is best applied to the soil rather than the foliage because it may cause some leaf burn under warm conditions.

Refrain from applying if the temperature is over 25 degrees celsius.

For indoor plants, it is essential not to overwater or underwater.

The soil should be kept moist, but well drained.

- ✓ **General fertilising:**
Dilute 40 ml, (2 cap fulls) of concentrate into 9 litres of water.
- ✓ **Lawns & Vegetables:**
Dilute 40 ml, (2 cap fulls) of concentrate into 9 litres of water. Apply every 2 -3 weeks during the growing season.
- ✓ **Herbs:**
Dilute 40 ml, (2 cap fulls) of concentrate into 9 litres of water. Apply every 2 -3 weeks during the growing season. Do not apply any later than 3 weeks prior to harvest.

	Analysis
Nitrogen	3.6%
Phosphorus	0.8%
Potassium	9.3%
Sulphur	0.5%
Copper	80 ppm
Zinc	80 ppm
Manganese	15 ppm
Magnesium	10 ppm
Boron	9 ppm
Molybdenum	2 ppm
Filtration	300 mic

%W/V is grams per 100ml of product
ppm is parts per million on weight basis
g/l is grams per litre
mic = microns
