1 litre

Fair Dinkum Fertilizers Tomatoes is a liquid based seaweed enhanced product that has been specially formulated for tomatoes.

It has added nitrogen, phosphorus, potassium and trace elements that are in a form allowing them to be readily taken up by the plant, to aid in fruit set and also plant development.

Tomatoes is a complete concentrated fertiliser and should not be applied at rate greater than those recommended.

In early Spring, it may be supplemented by one or two treatments with Fair Dinkum Fertilizers Fish Fert.

Do not apply to transplanted seedlings until established.

✓ General fertilising:
Dilute 40 ml, (2 cap fulls) of concentrate into 9 litres of water.

✓ Established Plants:
Add 40 ml of product to 9 litres of water and apply every week to ten days.
Be careful to water regularly as irregular watering may cause fruit to split.

✓ Established Seedlings:
Add 20 ml, (1 cap full) of product to 9 litres of water and apply with a watering can every week to ten days.

Analysis	
Nitrogen	4.0 %
Phosphorus	1.5 %
Potassium	7.1 %
Copper	180 ppm
Zinc	60 ppm
Manganese	155 ppm
Boron	90 ppm
Iron	420 ppm
Magnesium	1100 ppm
Filtration	100 mic

%W/W is grams per 100ml of product
ppm is parts per million on weight basis
g/l is grams per litre
mic = microns
